# HOUSE CONCURRENT RESOLUTION

REQUESTING THE CONVENING OF A TASK FORCE TO DEVELOP  
RECOMMENDATIONS FOR THE ESTABLISHMENT OF A REGULATED  
STATEWIDE DISPENSARY SYSTEM FOR MEDICAL MARIJUANA.

1           WHEREAS, Hawaii's Medical Use of Marijuana Law was enacted  
2 on June 14, 2000, as Act 228, Session Laws of Hawaii 2000, to  
3 provide medical relief for seriously ill individuals in the  
4 State; and

5  
6           WHEREAS, implementation of Act 228, Session Laws of Hawaii  
7 2000, recognizes the beneficial use of marijuana in treating or  
8 alleviating pain or other symptoms associated with certain  
9 debilitating illnesses, and recognizes the medical benefits of  
10 marijuana; and

11  
12           WHEREAS, Hawaii's Medical Use of Marijuana Law is silent on  
13 how patients can obtain medical marijuana if they or their  
14 caregivers are unable to grow their own supplies of medical  
15 marijuana; and

16  
17           WHEREAS, many of the State's almost 13,000 qualifying  
18 patients lack the ability to grow their own supply of medical  
19 marijuana due to a number of factors, including disability,  
20 limited space to grow medical marijuana, and an inadequate  
21 supply of medical marijuana to take care of their medical needs;  
22 and

23  
24           WHEREAS, a regulated statewide dispensary system for  
25 medical marijuana is urgently needed by qualifying patients in  
26 the State; and

27  
28           WHEREAS, 20 states and Washington, D.C., have medical  
29 marijuana laws, and 13 of these 20 jurisdictions have an active  
30 regulated system of dispensaries; and

1 WHEREAS, several other states are in the process of  
2 implementing laws relating to the establishment of dispensaries  
3 for medical marijuana; and  
4

5 WHEREAS, a regulated statewide dispensary system for  
6 medical marijuana will enable qualifying patients to obtain an  
7 inspected, safe supply of medical cannabis that is labeled as to  
8 the composition, strain, and strength of the cannabis to be most  
9 helpful to each patient's condition; and  
10

11 WHEREAS, in response to Act 29, First Special Session Laws  
12 of Hawaii 2009, the Legislative Reference Bureau published a  
13 report entitled, "Access, Distribution, and Security Components  
14 of State Medical Marijuana Programs," which discussed the  
15 policies and procedures for access, distribution, security, and  
16 other relevant issues related to the medical use of marijuana in  
17 all states that had a medical marijuana program; and  
18

19 WHEREAS, establishment of a tightly regulated statewide  
20 dispensary system was the number one recommendation of the 2010  
21 Medical Marijuana Working Group; and  
22

23 WHEREAS, the transfer of Hawaii's Medical Marijuana Program  
24 from the Department of Public Safety to the Department of Health  
25 in 2015 is an acknowledgement by the Legislature that the  
26 program is a public health program; and  
27

28 WHEREAS, a tightly regulated dispensary system for medical  
29 marijuana will comport with the spirit and intent of the Medical  
30 Use of Marijuana Law: compassion for Hawaii's suffering  
31 patients and the provision of safe, legal, and reliable access  
32 for qualifying patients; and  
33

34 WHEREAS, there are many models of medical marijuana  
35 dispensary systems available in other state jurisdictions,  
36 including models that were enacted after the passage of Hawaii's  
37 Medical Use of Marijuana Law; and  
38

39 WHEREAS, to provide equitable access to medical marijuana,  
40 the unique geography of the State with its four counties on  
41 different islands must be considered in the design and  
42 implementation of a regulated statewide dispensary system for  
43 medical marijuana; now, therefore,

1 BE IT RESOLVED by the House of Representatives of the  
 2 Twenty-seventh Legislature of the State of Hawaii, Regular
